

Adding Pictures to your TWT Webpage

Adding pictures to your TWT webpage is probably the fastest and easiest way to add color and style to your TWT Webpage.

1. Go to: <http://www.villagephotos.com/> and sign up for a free account (they will ask you to sign up for about 6 different offers, just click "pass" on the offers).
2. Upload your photos. When you upload the pics, the site will give you the URL of the uploaded file. It will look something like "http://img.villagephotos.com/p/2007-8/1276157/AB_Icon.gif"
3. Copy the URL.
4. Open your page in edit mode, then click on the page where you want the picture to appear.
5. Click the "Insert Image" button and paste the URL in the "Picture Source" field, then "OK". The picture will show up on your page, you can now resize the image if you like.

Let me know if you need more details or more explanation.

If you don't want to give Village Photos your real email address you can use a fake one. I gave my real one to them long ago and I very seldom receive emails from them. They are legit and do not bother me.
